Splunk Education

Transitioning to Single-Subject Courses Mapping

August 2021
Transition Overview
For Advanced Power User Courses

- Splunk Education is transforming how customers will be able to consume our curriculum.
- We are taking our courses and breaking them down into smaller, more manageable portions of single-subject courses to help each learner ramp up quickly and efficiently.
- The current 5 multi-subject courses that took anywhere from 4.5 to 18 hours to complete will be replaced by 22 new single-subject courses that are 3 hours or less.
- Advanced Power User persona is being broken down as:
  - Search Expert
  - Knowledge Manager
Multi-Subject Courses Replaced by Single-Subject Courses

Multi-Subject Courses

- User
  - Fundamentals 1
  - Fundamentals 2
  - Fundamentals 3
  - Creating Dashboards

- Power User
  - Advanced Power User
  - Advanced Searching and Reporting

Single-Subject Courses

- Knowledge Manager
  - Intro to Knowledge Objects
  - Creating Knowledge Objects
  - Creating Field Extractions
  - Enriching Data with Lookups
  - Data Models
  - Introduction to Dashboards
  - Dynamic Dashboards
  - Using Choropleth

- Search Expert
  - Scheduling Reports and Alerts
  - Visualizations
  - Working with Time
  - Statistical Processing
  - Comparing Values
  - Result Modification
  - Leveraging Lookups and Sourceroots
  - Correlation Analysis
  - Search Under the Hood
  - Multi-Field Fields

- Search Optimization

- Intro to Splunk
  - Using Fields
  - What is Splunk?
Persona Breakdown
For Advanced Power Users

Search Expert
- Writes searches
- Performs advanced searching, forensics, analytics
- Effects creative solutions to complex problems
- Staffs help-desk for search-related assistance
- Creates alerts & simple dashboards

Knowledge Manager
- Performs data interpretation, classification, enrichment
- Builds data models
- Manages knowledge objects
- Configures summary-based reports and data model acceleration
- Creates dynamic dashboards and visualizations
Your Transition Plan!
Which Single-Subject Course Should I take?

- Single-subject courses were developed to allow learners to consume, what they need exactly when they need it
- Course are flexible and don’t have any particular order
- The following content is to provide guidance to customers that have started taking multi-subject courses in the user learning path and want help identifying which single-subject courses to take based on the Search Expert and/or Knowledge Manager learning paths
- These are recommendations only

**NOTE:** Based on the recommended courses, there may be some review of content when taking the single-subject courses
Single-subject Courses

- What is Splunk (free eLearning)
- Intro to Splunk (free eLearning)
- Using Fields (free eLearning)
- Scheduling Reports and Alerts (free eLearning)
- Visualizations (free eLearning)
- Statistical Processing
- Working with Time
- Comparing Values
- Result Modification
- Leveraging Lookups and Subsearches
- Correlation Analysis
- Search Under the Hood (free eLearning)
- Multivalue Fields
- Search Optimization

**Knowledge Manager**
- What is Splunk (free eLearning)
- Intro to Splunk (free eLearning)
- Using Fields (free eLearning)
- Introduction to Knowledge Objects (free eLearning)
- Creating Knowledge Objects
- Creating Field Extractions
- Enriching Data with Lookups
- Data Models
- Intro to Dashboards (free eLearning)
- Dynamic Dashboards
- Using Choropleth
- Search Optimization

■ Same course offered in both learning paths
You Completed Fundamentals 1
